Over 2,000 Democratic Precinct Election Boards, 119 Democratic County Election Boards, and a solidly Democratic State Election Board—every one the creation of Mr. Goebel or his agents—certified to the following vote cast at the election held in Kentucky on Tuesday, November 7th,

William S. Taylor....193.714 William Goebel......191,331 Taylor's Plurality .. 2,383

THE Goebel Law is the most fitting monument that Goebel could have.

THE repeal of the Goebel Law by the men who have become its beneficiaries is a wanton insuft to the memory of GOEBEL.

If it has taken our Catholic friends of the entire world 608 years to convert 1,000,000 Chinamen, how much did the Editor of The Bulletin subscribe to the Home Mission School in this city?

THE Demo-populists complain because the Chemical Trust, as they allege, has advanced the price of ipecac. Don't see how that need affect any one; a reading of the socalled Democratic platform will have the same effect.

According to the statistics for 1899, the American Board of Foreign Missions, organized in 1810, now has in all "heathen" lands nearly 500 Churches, and during the 90 years of its existence it has received about 130,000 members. The cost has been \$27,000,000. Here's a chance for some zealous Foreign Missionary Editor to figure out how long it will take, at the above ratio, to make Goebel Democrats out of the remaining 299,-870,000 Chinamen, and how much of the \$100,000 Reward Fund will be left after Tom Scoundrel draws his claws out of the grab-bag.

THE LEDGER Editor is everlastingly after the Preachers for meddling w secular affairs. He does not hesitate, however, to meddle with religious affairs. What he doesn't know about Missions would fill a great big book, if printed .- Bulletin.

The Editor of THE LEDGER, unlike his contemporary, doesn't know everything; and, unlike his contemporary again, he doesn't array himself against those who do know what he doesn't know. He has common-sense ideas about some things, and besides he is willing to learn. If the Editor of The Bulletin will cast his religious eye over the diagram and figures that appear in another place in this paper, he may learn enough about Foreign Missions to fill a small book at least.

A MAN who rarely ever enters a Church is not very well qualified to discuss Foreign Missions or any other religious topic.-Bulletin.

Well, that's a "crusher"-a regular rock crusher, in fact.

Who the devil is the man after anyway?

Who is it, in all this broad land, that has the audacity to discuss Foreign Missions, or any other religious subject, unless he sits on the front bench at Church, and wears a sanctimonious face on Sunday and a Carkeristic smile the balance of the

week? Hereafter let no one dare to speak of what is done by the Kentucky Legislature unless he attends the meetings of that body; let no scribbler hereafter open his ink-wells on Congress unless he occupies a pew in that religious gathering.

History, recorded in tomes musty with the centuries, cold facts and figures born of experience—these things go for naught.

According to Editor MARSH the only commission that authorizes one to speak of Foreign Missions is attendance upon Church!

And yet one is amazed at the in-

crease of crime!

NEWS IN KENTUCKY.

KENTUCKY COAL.

Operators Receiving Many Inquirtes as to the Prices From Consumers in the South.

Corbin, Ky., July 10,-Coal operators in this section as well as the mining districts of Jellico are in receipt of many communications from consumers of steam coal in Alabama, Mississippi and other southern sections, desiring to know prices on coal delivered. These inquiries are the result of a strike which now seems imminent in the southwestern mining regions. The miners in the Alabama and other coal districts of the south and southwest have demanded an increase in the present wage scale, which, from present prospects, will not be granted.

Operators in Kentucky and East Tennessee are very much elated at the prospects of securing southern trade, as it means thousands of dollars to them. In the event of a strike in the southern coal regions they say they feel sure there will be no trouble in securing a greater part of the patronage of the southern people, and once it is secured they maintain that a considerable portion of it will stay with them. If such a result should occur eastern Kentucky coal fields will outrival those of West Virginia.

Nobody married and nobody dead; nobody broken an arm or a head; nobody came in to talk of the "crap;" no one got boozy and started a scrap; no one got run in for taking a horn; nobody buried and nobody born.
